INTRODUCTION.

Since the discovery and colonization of Canada, many different ethnic communities from various parts of the world had emigrated to Canada, and thus, forming one large ethno-cultural family. This included the Doukhobors who had migrated in the early part of 1899.

The first Doukhobors to set foot on Canadian soil, were the delegates who were sent to seek new lands for the rest of the Doukhobors. These delegates were, Peter Makortoff and Ivan Ivin with their families, together with Aylmer Maude and Prince Hilkooff have set sail aboard S.S. "Vancouver" from Liverpool to Quebec on September 1, 1898, arriving in Canada on the 10 of September¹.

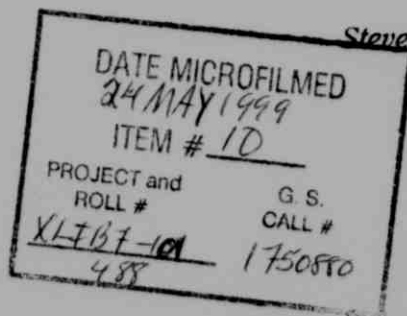

Looking through the Ships Manifests at the National Archives of Canada at Ottawa, one can find an enormous amount of material relating to all the immigrants to Canada. In this respect the Doukhobors are not excluded. Yet to my disappointment I did find one complete Manifest to be missing and presumably destroyed. In Part 1 of this document the reader will find the correspondence on this particular Manifest and how it went missing.

This document is divided into five Parts, each Part represents a ship load of Doukhobors. Since all the names are on a microfilm and the original papers were very smudged or written very poorly, many of them are unintelligible and are very hard to understand or read. In compiling the list of names I have tried to transcribe the names the best I can. Under each name I have also included it in Russian language.

I would like to ask the reading public if anyone has any information on any of the names that are listed here or those that are not on this list, I would appreciate receiving additional information. Furthermore, if any one has further information regarding the Doukhobors who have migrated to Canada in later years, I would be pleased to have it. This Document "List of Doukhobor Emigrants" could be updated in the future. I could be reached at the address below.

Some may find this to be as a guide to trace their ancestors.

Manifest was sent to Winnipeg and was never returned. Manifest would appear to be incomplete - Douk file shows this vessel had over 2,000 passengers. 24/3/81.

District Superintendent of Immigration, Winnipeg, Manitoba.

The records here indicate that the manifest of the SS. "Lake Huron" arriving at Halifax and St. John on January 20th, 18996 was forwarded under date of February 20th, 1899, to W. F. McCreary, then Commissioner of Immigration at Winnipeg.

The fact that a number of Doukhobors who arrived on this vessel are now seeking verification of their age in connection with their applications for the Old Age Pension has necessitated the possibility of this manifest still being available in Winnipeg being explored.

WESTERN DISTRICT SUPERINTENDENT

WINNIPEG.

May 1st, 1945.

Commissioner, Ottawa.

I have for acknowledgement your letter of the 27th instant, your file 65101, and I regret that if the manifest of the s.s. "Lake Huron" arriving at Halifax and St. John on January 20th, 1899, was forwarded to this office, it would appear to be no longer in existence. The presumption would be that in clearing up old records and files it must have been destroyed with the procedure indicated by the Department.
